Summery

- Versatile web developer with a proven track record

- Delivering robust solutions for large-scale businesses

- Comprehensive, spanning front-end and back-end technologies, databases, and mobile development

- Tackling project challenges from inception to completion

Top Skills

JavaScript: fully use

NoSQL/SQL DB: smart patter design

Node.js: full experienced

React.js: deep understanding and wonderful skill in using

UI/UX: specific sense

JEFF CHIN   CREATIVE WEB DEVELOPER

http://fullstack-dever.github.io/   nykytashorst@gmail.com

Experiment

FULL-STACK DEVELOPER USING REACT.JS AND NODE.JS
(Nov. 2019 – Mar. 2020)

Company: OneSky, Hong Kong
Role: Developed and maintained multilingual web applications.
● Utilized react.js and node.js for front-end and back-end development.
● Implemented efficient database designs and optimizations.
● Ensured smooth project delivery using Git-base version control.
● Collaborated with cross-functional teams to enhance user experience.

SOFTWARE ENGINEER USING PYTHIN AND NODE.JS
(Aug. 2020 – Apr. 2021)

Company: SenseTime, Hong Kong
Role: Developed scalable back-end systems and optimized databases.
● Built and maintained server-side applications using Python and Node.js.
● Managed project timelines and deliverables from inception to deployment.
● Conducted code reviews and implemented best practices in version control.

MOBILE DEVELOPER USING ANDROID
(Jul. 2021 – Aug.2022)

Company: Klook, Hong Kong
Role: Developed and optimized Android applications for travelers.
● Designed and implemented user-friendly Android application features.
● Ensured seamless integration with web services and backend systems.
● Managed full project life cycle, ensuring timely and quality delivery.
● Maintained robust version control practices to ensure code reliability.

Skills

Algorithm design: as a smart software engineer algorithm design skill

UI/UX: an experienced UI/UX designer with many personal & team Projecting

DB Design: smart skills in structing DBs with MongoDB, MySQL

High Quality & Performance: as a full experienced several program languages, in short time can finish the project in high performance

Blockchain Tech: deep understanding about blockchain

Ability for multi-task: perfect handling with time

Ability to learn fast: always try to learn new trend

Smart use of git: good comments and seasoned version control

Several Languages: JavaScript, C++, C#, python, java, Html, CSS…

Framework: react, react-native, Vue, Android…

Education

UNIVERSITY OF HONG KONG

From Oct.2016 – Nov.2019

Awards during University

Innovation Awards(2018)

Student of the Year(2018)

Outstanding Graduate Award(2019)

POSTGRADUATE STUDY – AT HKU

From Jan.2023 – Apr.2024

Master's degree in Computer Science(March.2024)
